I am selfish;
 I am cruel;
 I made shellfish
 For a fool.

I had also made the fool,
 And him I made my slave and tool,
 And filled him full of fears and fright,
 Ami told him stories of my mi^ht.
 M\ mi^bt. nor I. do not exist.
 But all the foolish that insist.

^i\ \k-\, ilien I -liail be installed in the cavern with the machine immediately?"

"Immediately."

Years passed. Tie tim.' preserving machine kept the body of tie dictator intact for ap's. Finally the machine stopped and tie Leader awoke. He quickly stood erect and rushed to the surface in tli.' elevator.

"My everything looks similar to what it was. We must have won a speedy victory, for nothing has changed. It is strange that a reception is not waiting for Me as I expected. I shall speak to tie soldiers at (lie outpost ov.'r there and announce My presence. Oh, I can see that one of them has spotted Me with his Held glasses. I can see the excitem.nl in his face from here. He is now telling his comrade (lie ^real news. Oh, if I could only hear what they are saying!"

Yes if he could have only heard what they wer.' saying.

"Look, Egor! Who is that approaching? Could it be our Leader!"

"Impossible, Georg. Tie Leader is at an important conference at tie Palace, and besides, He never lakes a step without His armed escort accompanying Him."
